

DEAR FRIENDS,

One year ago the first COFFI Festival took place, and this year for the second time we will be bringing Italian culture and lifestyle to Berlin. Around 30 volunteers worked all year to get more than 100 Italian and international artists to Berlin for everyone to experience and celebrate together.

The topic for 2015 is "Grow On Diversity". At COFFI we see differences in cultures and opinions as great potentials for growth, rather than problems. The possibility to learn from others, whose strengths and weaknesses may be different from our own. This aspect plays a big role in the COFFI program, as we want to experiment with different arts and new forms; not restricted by boundaries, but instead held together by self-expression and passion, showing the will to experiment and courage required in doing so.

But with all the theory, the most important aspect for us at COFFI is that we enjoy this special moment together, with you, the artists, and everyone who wishes to join. We want to meet new people, laugh, discuss, dance, eat and live, with you all together.

YOUR COFFI TEAM

The whole festivalside will be decorated using upcycling methods by the Italian artist group **Plinto**.
(all built furniture is out for sale!)
